The Capital City Crowded With Visitors.

INAUGURATION ARRANGEMENT.

Grand Ceremonies Marking the Change of Administrations Go on With Feverish Haste and Bustle—McKinley Has Not Yet Completed His Cabinet—Gossip Gathered in the Busy City.

WASHINGTON, March 3.—The national Capitol shelters the outgoing and incoming presidents and vice presidents, and preparations for the grand ceremonies marking the change of administrations go on with feverish haste and bustle. Major McKinley and Mr. Hobart were welcomed to their future home by one of those glorious, bright days, such as Washington takes pride in, when in the mood. The entry of the two was made with little ceremony and comparatively slight public demonstration.

Governors, generals and men with one title or another, past or present, continue to arrive with each train, so that it is no longer a risk to address with some title almost any one who may be met about the hotels or public offices.

Of the prospective new cabinet there are in the city Messrs. Sherman, Gage, Alger, Gary, Wilson and McKenna, and a possible cabinet officer in J. J. McCook of New York, who arrived during the day.

Of governors of states there are already here Governors Black of New York, Tanner of Illinois, Grant of Vermont, Lowndes of Maryland, Scofield of Wisconsin, Hastings of Pennsylvania, Griggs of New Jersey and Bushnell of Ohio. Governors Drake of Iowa and Pingree of Michigan will be in Washington before night.

The arrival of the president elect and the presence of such a large proportion of public men of influence sufficient to affect the formation of the new cabinet, started a flood of gossip concerning the members of President McKinley's official family, but through all the fog of guesswork and speculation the fact shows clearly that the cabinet is still uncompleted and for precisely the same reason that it has known to be about a week, namely that the president elect desires to honor New York with a place and that a man has not yet been found acceptable at once to the leaders of Empire state politics and willing to take the position which the cabinet slate, as arranged, marks as his birth. Senator-elect Platt saw Mr. McKinley during the afternoon, but the conference was indecisive.

One interesting suggestion cropping out of the cabinet gossip was an intimation that the senate might adjourn over from Thursday until the following week. The significance of the intimation lay in the fact that there had been canvassed the possibility that Mr. McKinley's cabinet would not be ready for announcement on Friday and that therefore no occasion would arise for a session to confirm the successors of the present cabinet. There have been delayed cabinet announcements in the past, and at such times the outgoing officers out of courtesy have held onto their places until such time as it was the pleasure of the chief executive to relieve them, only routine business, of course, being attended to, and matters of policy deferred. Inquiry at the senate on the matter of adjournment was answered by the statement that it would be as Mr. McKinley might wish.

The incoming of so many visitors of note also started the social activities of the town, and there were innumerable dinners and receptions in the fashionable parts of the city in honor of inaugural sojourners.

Grand Marshal Porter kept hard at work at his quarters arranging for the big parade on Thursday. A rough total of the number of regular and militia soldiers and sailors who will be in line shows an aggregate of 11,000 to 12,000. The escort of President-elect McKinley when, in accordance with custom he rides down the avenue to the Capitol to take the oath of office, will number about 5,000. The civic organizations vary so greatly in strength that it has been found absolutely impossible to make an exact statement of the number of men they will have in line, but it is estimated at about 12,000.

President Cleveland and Mrs. Cleveland last night entertained at dinner President-elect McKinley. The invitation, which while not a novelty, is not always usual to a change of administration, was extended through Secretary Porter several days ago, but up to a late hour in the afternoon it was doubtful whether or not it could be carried out, owing to the indisposition of President Cleveland. Word came to Mr. Porter at the Ebbitt, however, about 5 o'clock, that the president had so far recovered from his rheumatic attack as to be able to carry out the engagement, which was renewed in pressing form. It was expected that Mrs. McKinley would accompany her husband to the dinner, but owing to the exhaustion that followed the exciting events of the journey from Canton and the day in Washington she was unable to do so.

There was nothing elaborate about the dinner or the decorations. Mrs. Cleveland had given her personal attention to the arrangements and the table decorations and menu were exceedingly simple and in good taste. Freed from the restraining influence of others, the retiring and incoming presidents and Mrs. Cleveland chatted without formality and without doubt the president elect received many hints as to the easiest manner to bear the burdens of the responsibilities that will be

imposed upon his family in the management of the White House during the next four years.

While President Cleveland was extending these courtesies to his successor, the vice president elect was entertaining Secretary Porter and some chosen friends at dinner at the Arlington.

Mr. Bliss called upon Mr. Platt last night at the Arlington and spent a few minutes in consultation. He has so far yielded to Mr. McKinley's wishes as to consent to take back his original refusal of a cabinet position and to promise to further consider the offer.

Long Has Accepted.

BOSTON, March 3.—Ex-Governor John D. Long of Higham, Mass., has announced that he has accepted the navy portfolio in President McKinley's cabinet.

FINISHING THEIR WORK.

Senate Rushing Legislation Preparatory to Adjournment.

WASHINGTON, March 3.—The senate had its share of inauguration crowds yesterday and they were compensated by something more than the routine procedure of appropriation bills. The bill for an international monetary conference was taken up at 1 o'clock, and after two hours of animated debate the house amendments were agreed to without the formality of a ye and nay vote. This is the final legislative stage of the bill and it now goes to the president.

The fortification appropriation bill was passed early in the day. The deficiency appropriation bill led to animated controversy over adding a number of claims aggregating \$587,900 under the Bowman act. An amendment covering the claims was finally adopted.

In the House.

WASHINGTON, March 3.—The house is working night and day. The session began at 10 o'clock and continued far into the night. The galleries and surrounding corridors buzzed with inauguration visitors. The spectators were hardly repaid for their patience, however, as the day session was a dull grind of routine. An attempt was made to bring up the anti-prize fight bill, which came over as the unfinished business from Monday, but it was staved off by short recesses awaiting conference reports, which would take precedence over it.

Immigration Bill Vetoed.

WASHINGTON, March 3.—President Cleveland vetoed the immigration bill. This was what was pretty generally expected. It is believed the bill will be passed over his veto. The bill restricts immigration under certain educational qualifications.

GIGANTIC COAL STRIKE.

Miners in the Pittsburg District Will Demand Higher Wages.

PITTSBURG, March 3.—There will be a strike of miners of the Pittsburg district unless something is done to alleviate the distress that now exists.

National President M. D. Ratchford and the national officers will co-operate with the district officers to secure for the miners a higher rate of wages.

It will be remembered that at the national convention at Columbus in January it was decided that miners should demand a wage rate of 69 cents in the Pittsburg district, with the usual differentials as wages paid in the other bituminous districts are always based on the mining rate at Pittsburg.

Operators are now making preparations for the lake trade, which will open about the middle of April, when all railroad mines will have nearly all the work they can do. It has been agreed that whatever action is taken by the miners must come before that time, and in case the district price is not advanced the trouble will rival the national strike of five years ago. At present the Pittsburg wage rate is from 54 to 60 cents.

Western Operators in Conference.

TERRE HAUTE, Ind., March 3.—There will be an adjourned meeting of the Indiana and Illinois coal operators in Chicago tomorrow to hear a report of the committee in regard to the agreement with railroad companies, by which the coal business in Chicago will be conducted at a uniform price. Indiana and Illinois operators have been cutting prices for the past two years, until now the price is more than 50 cents a ton less than two years ago. The wages paid to miners have been reduced 10 to 20 cents a ton. Indiana and Illinois will cut loose from the Ohio and Pittsburg standards.

APPOINTMENTS DECIDED UPON.

Men Who Have Been Selected For Important Foreign Missions.

WASHINGTON, March 3.—President-elect McKinley has settled upon several leading foreign missions, viz:

John Hay, ambassador to London.
General Horace Porter, ambassador to Paris.

Congressman Draper of Massachusetts ambassador to Italy.

Powell Clayton of Arkansas minister to Mexico.

Mr. Clayton denied the rumor circulated that he was to go to Russia, and says he will go to Mexico instead.

It is generally understood here that Perry S. Heath is slated for second assistant secretary of the treasury.

Mrs. Beecher Worse.

STAMFORD, Conn., March 3.—Mrs. Henry Ward Beecher is weaker, more restless and apparently suffering more.

Plague in Bombay.

BOMBAY, March 3.—The number of deaths in Bombay from the plague for the week ending Feb 28, is 1,535.

GENDARMES REVOLT.

Wild State of Excitement in the City of Canea.

FOREIGN MARINES CALLED ON.

After Several Volleys Had Been Fired the Mutineers Surrendered—Two Thousand Mussulmans Reported Massacred—Lives of Foreigners in Danger—The Powers Defied—Cretan War News.

CANEA, March 3.—This city was thrown into a wild state of excitement yesterday afternoon by a revolt of the gendarmes. They are composed of Albanians and Bosnians. Their pay is 15 months in arrears. Monday they refused to go on duty and yesterday they seized their officers and imprisoned them in the governor's palace, upon a report gaining currency that the officers had received their pay and intended to leave the island. The officers tried to escape and the mutineers fired upon them. Colonel Suleiman Bey has since died of his wounds. He was shot through the body. The mutineers then barricaded themselves in the barracks.

The foreign marines were hurried to the scene and surrounded the barracks. The Italian and German detachments fired volleys under the windows and the British commander was just ordering his detachment to fire when a white flag was thrust out of a window. The British and Austrian officers thereupon held a short parley with the mutineers, eventually ending in the surrender of the latter.

After a conference yesterday between the consuls and the admirals it was decided to send officers to Celino and Hierapetra in order to facilitate the rescue of the besieged Mussulmans. Celino and Candamo will be placed under the protection of the powers.

THE POWERS DEFIED.

Greek Commodore Not Ready to Obey the Foreign Admirals' Orders.

ATHENS, March 3.—Advises here from Canea say that the foreign admirals demanded that the Greek warships leave Cretan waters within 24 hours. To this demand Commodore Reinick, commanding the Greek warship Hydra, replied that he would only obey the orders of his own government. If his ship were sunk, he declared, she would salute the foreign flags as she went down.

The government is informed that the garrison of Landamos, island of Crete, which was captured by the insurgents, comprised 1,200 Turkish soldiers. The government has wired the Greek vice consul at Canea instructing him to start at once for Selino and use his influence in behalf of the Moslems who have been made prisoners there.

WHOLESALE MASSACRE.

Lives of Europeans in Canea Now Said to Be in Great Danger.

PARIS, March 3.—A dispatch to The Eclair from Canea says it is reported there that 2,000 Mussulmans, who were interned in the fortress near Selino, have all been massacred and that great apprehension is felt in regard to the fate of 4,000 Mussulmans who are besieged near Canea.

The Mussulmans of Canea are so incensed and excited at the danger of their co-religionists that the lives of Europeans are in danger and the foreign consulates are threatened, to protect which an additional force of marines has been landed by the various warships.

ADMIRALS' ULTIMATUM.

Greek Warships Must Leave Cretan Waters Within Forty-Eight Hours.

NEW YORK, March 3.—A special to The Herald from Canea says: The admirals of the allied fleet will send an ultimatum to the Greek warships to leave Cretan waters within 48 hours.

Marines have been landed at Sada bay.

Four Turks have been killed at Zixalrie and 10 wounded.

In consequence of the capture of the Turkish fortress of Stavros, near Candanos, by the Greek troops, the lower classes in Canea are very much excited.

The Sultan Satisfied.

LONDON, March 3.—The Athens correspondent of The Times learns on good authority that the sultan regards the Cretan imbroglio with cynical satisfaction. He is glad to be relieved of a troublesome responsibility. He recently remarked, while rubbing his hands gleefully: "The powers appear to be getting on well with their proteges."

Italian Volunteers En Route to Athens.

CORFU, March 3.—Italian volunteers arrived here and proceeded to Athens. Among them were Prince Alessandro Bascacuto and Nicola Barbato of Patimo. They were enthusiastically cheered on their departure.

WARING CHURCH FACTIONS.

A Mob Holds a Church in Defiance of a Sheriff's Posses.

BAY CITY, Mich., March 3.—The warring factions of Stanislaus Polish Catholic church yesterday refused to turn over the property to the sheriff as ordered by Judge Maxwell. The sheriff gained admittance to the premises early in the morning, but a mob, the majority being women, armed with clubs and boxes of pepper, refused to admit the sheriff's deputies. Three deputies endeavored to relieve the sheriff yesterday evening, but were repulsed by the

angry mob, one deputy being badly clubbed.

At an immense meeting held by the Antis last night it was announced that Judge Maxwell had decided to call on the governor for troops unless the Antis surrendered within 24 hours, but the belligerents declared they would hold the church against all comers unless the bishop returned to them all the money they had paid into the church. Late last night the sheriff withdrew from the church premises, leaving the mob in complete possession.

MURDERED BY WHOM?

A Young Farmer Shot to Death and His Rival Arrested.

EVANSVILLE, Ind., March 3.—Nicholas Trautvetter, a young farmer, 19 years of age, was found dead, lying in the road a few miles from the city. He was found to have three bullet holes through his head and one through his body, and had been dead some time when found.

Robert Moore has been arrested, charged with the murder. Trautvetter and Moore were suitors of Miss Phoebe Schiek. Trautvetter had been with Miss Schiek and was on his way home when shot to death.

As Trautvetter traversed the county road Moore joined him. Moore claims that some unknown person shot Trautvetter from ambush. Moore then hastened home and told his story to his father. The latter aroused the neighborhood and then sought the murdered man. Later his family were notified.

MINERS' TRAIN RUN INTO.

Eight Men Hurt and Several Cars Badly Wrecked.

BRAZIL, Ind., March 3.—The miners' train on the Chicago and Eastern Illinois railroad, containing several hundred miners on their way to work, stopped on the main track at the roundhouse at 11 o'clock yesterday, when a freight backed around the "horn," unaware of the presence of the miners' train, and crashed into it with great force.

Several cars were badly wrecked, while the miners were thrown into a heap on the floor of the cars and benches and the tools, etc., piled upon them. Eight miners were considerably injured. Lawrence McMains had one ear torn off and was otherwise hurt.

EXPLOSION IN A SEWER.

Six Squares of Sewer Lines More or Less Damaged.

INDIANAPOLIS, March 3.—An explosion on the Yeiser street sewer yesterday afternoon startled the whole South Side and caused people as far away from the scene as West Indianapolis to think that there had been an earthquake. The gas filled the entire sewer.

The explosion extended along the entire length of the sewer in Yeiser and north and south in the cross streets. Sewer caps were blown high in the air. The fire department was called to the South Side and all kinds of reports were current. Six squares of the sewer line was more or less damaged.

Highwayman Caught.

CLARKSVILLE, Tenn., March 3.—Joseph Johnson, an escaped highwayman from this city, was captured at Madisonville, Ky., and returned here. He was bound over to the criminal court under a \$1,000 bond, in default of which he went to jail. He has figured in several highway robberies here. He is a member of a gang. Duce Gaines and Henry Mimms being his pals.

An Effective Water Tower.

INDIANAPOLIS, Ind., March 3.—Sander & Becker's furniture store in the heart of the city was threatened with destruction by fire yesterday afternoon. The fire started in the basement and smoke filled the building. The cellar was flooded by use of the water tower, and the flood was extinguished. Loss, \$5,000; insured.

Detroit Tragedy.

DETROIT, March 3.—Nicholas Schorn, formerly a saloonkeeper, and his stepson Matthew, aged 10, were found dead at noon yesterday in their home on Brewster street. Mrs. Schorn asserted that the deaths were due to coal gas. She was arrested in the afternoon on suspicion of having caused the deaths.

Reception on a Monitor.

CHARLESTON, S. C., March 3.—The officers of the three monitors, the Puritan, Amphitrite and Terror, united in holding a reception yesterday afternoon on board of the Amphitrite. The reception was largely attended by representatives of Charleston society and a delightful occasion was enjoyed.

Found Dead in His Garret.

LOUISVILLE, March 3.—George Clemmens, a miser, was found dead on the floor of a garret in the slums yesterday morning by the police. The cause of his death is not known. He was seen alive Monday night. The woman who lived with him has disappeared, and she is suspected of murder.

An Accident on the Wabash.

BUTLER, Ind., March 3.—The St. Louis and Detroit limited train, east-bound, on the Wabash, was derailed yesterday at Newton, the entire train leaving the track at the crossing of the Lake Erie road. That none of the passengers were killed or injured is considered a miracle.

CONNERSVILLE, Ind., March 3.—In a fight Earnest Dugan knocked Earl Nelson down and broke his right arm at the elbow. Both are well known young men, and the affair caused quite a commotion.

DYNAMITED A HOUSE

OBJECT TO UNDESIRABLE TENANTS

No One Injured and No Arrests Have Been Made—Populists Win a Victory—New Oil Field Discovered—A Fatal Runaway. Death of an Old Citizen—Other Ohio State News Items.

CHILLICOTHE, O., March 3.—A dynamite outrage occurred at Bourneville at an early hour yesterday morning in which a house was completely destroyed. It is believed that some of the good people of the village are the guilty parties, but no proof can be obtained.

For some time past, the house, which is a fairly large one, has been occupied by a disreputable family, and they recently moved out. It was learned that another undesirable family was going to move in, and yesterday morning the house was completely destroyed, enough dynamite being placed under it to leave nothing but a hole in the ground. No one was injured.

New Oil Strike.

CHILLICOTHE, O., March 3.—Oil was struck at Adelphi, this county, yesterday, though in what quantity is not known, as those interested positively refuse to talk about the matter. Great excitement prevails there, and land all about there is being leased. Ex-Governor Campbell is a member of the company that has put down the successful well.

Populists Win a Victory.

COLUMBUS, O., March 3.—Secretary of State Kinney has ruled that municipal Populist tickets will have to be put on the Australian ballot this spring by petition, no matter how many votes local Populists got last fall. On the state ticket the party failed to show the standard of strength, and the ruling is made on this ground.

Strike Growing.

CLEVELAND, March 3.—Four hundred skilled laborers have joined the ranks of the unskilled laborers who inaugurated the strike at Hanna's shipyards Monday against the employment of nonunion labor. Everything is quiet, but an amicable agreement is not in sight.

STRIKE IN NEW YORK.

One Thousand Out and Ten Thousand More Likely to Follow.

NEW YORK, March 3.—One thousand cloakmakers who make up goods for Freedman Brothers, cloak manufacturers of this city, went on a strike last night for higher wages without the consent of the executive committee of their union, the United Brotherhood of Cloakmakers.

Freedman Brothers take work from about 35 contractors. At their warehouse they employ 300 men, called inside workers. The 700 men who work for the contractors are called outside men.

Committees were sent around late yesterday evening ordering strikes at all the shops. At 8 p. m. all the men had been called out, including the inside workers of Freedman Brothers.

Strikes have also taken place in a number of other shops, and it is expected that by the end of the week all the 10,000 cloakmakers, together with 2,000 shirtmakers and 500 knee breeches makers, will also be out.

TEMPERANCE BILL PASSED.

Quart Shops to Be Done Away With in Indiana.

INDIANAPOLIS, March 3.—Representative Nicholson's anti-quartshop bill, so much discussed because it was held up in the house temperance committee, passed the house by a vote of 74 to 14.

The bill is intended to wipe out quart shops springing up under the present law, requiring licenses only for selling liquor in less quantities than a quart. The bill requires a \$100 license from the county commissioners for any dealer, except the wholesaler, selling in quantities less than five gallons.

The Republicans got control of Louisville a year or so ago and what a record they have made! Those Aldermen down there seem to think "public office is a private snap," and they have been looking after No. 1 from the start.

The Sheriff attached the receipts of Bryan's lecture at New Haven last week. The claim was an old one against Comstock, Bryan's manager. Bryan was much annoyed at his Yale luck. It is said that the claim will be settled.—Public Ledger.

It may be settled but not by Mr. Bryan, simply for the reason that the court decided he doesn't owe the claim. The receipts were turned over to Mr. Bryan.

The Lexington Argonaut calls upon the powers that be to create a new office in that city—that of Public Guardian—to protect the gullible citizens of that gullible town from the numerous fakirs that continue to swindle the dead-easy citizens week after week. Most any kind of fake can do them up brown. And then some fakir or slick rascal would come along and do up the Public Guardian.

WHAT does Secretary of State Olney expect to accomplish by such a policy as he has pursued in reference to the Cuban affairs? After positively denying that Consul General Lee had asked for war ships or had threatened to resign if not backed up in his efforts to protect American citizens arrested in Cuba, the State Department has sent to the Senate the correspondence with the Consul General showing that he did call for support and did declare that if he did not receive it he would be compelled to leave Cuba. This isn't calculated to raise Mr. Olney any in the estimation of the people. Just the reverse.

MR. GAGE, whom President McKinley has selected for Secretary of the Treasury, seems to be a warm supporter of the civil service law. He talks in a way that will not please the office seekers. "It really seems extraordinary," he said, "that men throughout the United States, whose ability is such that they consider themselves fitted for the holding of responsible Government positions, seem to be entirely unaware that the operations of the civil service law, as recently broadened, make it absolutely impossible for them to be given the positions to which they aspire. I don't know of any American governmental doctrine that is less understood in general throughout the entire country than the civil service law—but I fancy there may be a general awakening on the subject during the next four years. In so far as the department which I am to assume is concerned there certainly will be."

Marry or Pay a Tax.

[Exchange.]

The wise legislators of the Argentine Republic have been much troubled about providing a population for their large and fertile country. They have decided to provide a remedy by making marriage almost compulsory. A law has been introduced, the first clause of which reads: "On and after the first day of January, 1897, every male from the age of 20 to 80 shall pay a tax till he marries, and shall pay it once in every month." The next clause is more severe, and reads: "Young celibates of either sex who shall, without legitimate motive, reject the addresses of him or her who may aspire to her or his hand, and who continue contumaciously unmarried, shall pay the sum of 500 piastres for the benefit of the young person, man or woman, who has been so refused."

[Exchange.]

Deacon Capen is dead. His title to distinction is that, living all his life of eighty-seven years on a wooded and rocky farm near Sharon, Mass., and following no pursuit but farming (and economizing), he accumulated a fortune of \$190,000. Of this sum he made over some years ago over \$88,000 in securities to the Massachusetts Baptist Association and \$30,000 to the Baptist Home Missionary Society of New York, stipulating that while he lived he should receive annually a sum equal to 6 per cent. on the amount given. He denied himself what others consider the comforts of life, and was proud of his economies, boasting that he had worn the same coat to church for about sixty years.

Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thos. Eggers, 139 Florida street, San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else, then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in coughs and colds. Free trial bottles at J. James Wood's Drug store. Regular size 50c. and \$1.

The sick man knocking at the door of health gets in if he knocks the right way, and stays out if he doesn't. There are thousands of ways of getting sick but only one way to get well. Do whatever you will, if you do not put your digestion in good order, and make your blood rich and pure, you will not get well. Rich, pure blood is the only thing that can bring perfect health. Consumption is a disease of the blood. A large part of all diseases are traceable directly to impurities in the blood, and can be cured by eliminating them with Dr. Pierce's Golden Medical Discovery. The first thing it does is to put the whole digestive system into perfect order. It stimulates the appetite, excites a copious secretion of the digestive fluids and promotes assimilation. It searches out disease germs wherever they may be, kills them and forces them out of the system. The "Golden Medical Discovery" has been used with unvarying success for over thirty years.

Life.

Mysterious something! What are words to tell? What thought can find the palace where you dwell?

How may we know the bounds of thy domain, How weigh or measure aught of loss or gain?

And yet we know thee well! Here by this hand I touch and feel; I beckon with command.

I see the beauty of thy marvels here; Life's fields are green; death's acres dry and

ere. Life speaks to death, but death no answer gives; Dead is all death—'tis only life that lives!

A dagger thrust put out the perfect light—A snuffed-out candle in unending night!

So we may reason; affirm or yet deny; Still, "What is life?" is our incessant cry.

Question no more. Life is not mortal breath; The true life yet to be comes after death!

LOUISVILLE TOBACCO MARKET.

General Quality of Offerings Were Common, but Some Nice Hogheads Were Sold—The Prices.

The following is furnished by Glover & Durrett, of the Louisville Tobacco Warehouse:

Sales on our market for the week just closed amount to 5,328 hhds. with receipts for the same period 5,361 hhds. Sales on our market since January 1st amount to 32,250 hhds. Sales of the crop of 1896 on our market to this date amount to 31,554 hhds.

The general quality of the offerings of burley tobacco has been common, but the sales included some hhds. of choice leaf, which sold at prices ranging from \$14 to \$18.50. The market the past week has been irregular and weaker for some grades. The very common grades have remained steady, and the full bodied red tips and common leaf have shown an advancing tendency, but the medium to good grades of leaf both red and color, such as are selling from \$8 to \$12, have been several bids lower during the week. A considerable portion of the offerings have shown in soft order and this condition is detrimental to the sale of color lugs and trashes while the good grades of leaf and red styles of medium grades sell fully as well and show to better advantage in pliable condition.

ANOTHER GOOD CITIZEN GONE.

Death of Mr. F. H. Traxel at an Early Hour
This Morning—Had Been Ill
Three Weeks.

The many friends and acquaintances of Mr. F. H. Traxel were shocked this morning by the sad news of his death.

A little over three weeks ago, he was stricken down with an attack of rheumatism, which became complicated with other troubles, and terminated in his death shortly after 5 o'clock this morning. His condition had been very serious for a week or so, but his friends were not prepared for the sad news of his demise.

Deceased was born in Maysville, was a son of the late George Traxel, and was thirty-eight years of age. One brother and three sisters survive him. His brother, Mr. Chris Traxel, lives in Germany, and the sisters are Mrs. John Cablish, of Augusta, and Misses Sophia and Anna Traxel, of this city.

Deceased started in life a poor boy, but by his industrious and frugal habits and his strict attention to business had amassed considerable of this world's goods.

Mr. Traxel was a member of DeKalb Lodge No. 12, and of Pisgah Encampment and Maysville Canton, I. O. O. F., holding the office of Lieutenant in the Canton at the time of his death. He was also a member of Mason Lodge No. 342, F. and A. M., and was a member of the local lodge of the A. O. U. W., and also of the Grand Lodge of Kentucky of the latter order.

Deceased was also one of the Trustees of the German Church.

The funeral arrangements have not been announced.

Y. M. C. A. Notes.

The supper given by the Woman's Committee last night was well attended, considering the very inclement weather. The receipts amounted to about \$35.

A Barcelona newspaper, El Diluvio, expresses the Spanish idea of a colony very frankly as follows: "We do not have colonies to protect them with our money. We have them as markets in which to sell our products, whether they like it or not, and if we civilized them, giving them our language and religion, we have the right in exchange to send our sons there to make their fortunes, and, furthermore, it is our privilege to enjoy here all the benefits of possessing those distant lands."

Special Sixty Day Offer.

In consideration of the trouble in the money market and having the largest stock of goods in our line ever in the city, including a complete assortment of barouches, surries, buggies, carts, harness, &c., &c., we have concluded for the next sixty days to sell regardless of former prices or cost. They must go. Strictly hand-made buggies from \$85 to \$125, factory buggies from \$45 to \$65, other goods correspondingly low. Call, examine and be convinced.

MAYSVILLE CARRIAGE CO.

REFERENCE is made elsewhere to a discovery at Dover this week that has caused somewhat of a sensation at that place. A later dispatch says the mysterious woman seen there Saturday evening is supposed to have been from Maysville.

Dover's Mystery.

DOVER, Ky., March 1.—A basketful of woman's wear was found under the bank of the river in the rear of a vacant lot late this evening. A ten-pound rock was in the basket, evidently for the purpose of sinking it. A man and young woman were seen tramping into town late Saturday evening with a basket like the one found and have not been seen since. The mysterious find will be fully investigated, as foul play is suspected.

THE Young Men's Blaine Club of Cincinnati passed here last evening at 5:30 on a special C. and O. train en route to the inauguration. They were out for "a good time," and it is said the train was well supplied with liquid refreshments.

THE BULLETIN's Stone Lick correspondent contributes the following: "During slavery there was a public sale of negroes at Orangeburg, among whom was Perry Jonah now living in the above named place. Perry had only one eye; the auctioneer, T. P. Howard, had only one eye; the slave was bought by a one-eyed man, Mr. James Willet, and a one-eyed man, Mr. Jacob Thomas, went his security. Such a case was never known before or since."

THE announcement of Mr. J. D. Roe as a candidate for Police Judge of the city of Maysville appears in this issue. Mr. Roe is one of Maysville's best citizens, a gentleman in every sense of the word, and is a man well qualified to fill the position, and who says he hasn't any enemies to punish or friends to favor, and besides needs the office. So if the people, as they should, would first consider the man's qualifications, then his needs, surely J. D. Roe will be the next Police Judge of the city of Maysville.

ANOTHER MAYSVILLIAN

Going to the Front—Mr. J. D. Sadler Made T. and P. District Freight Agent at Atlanta.

[New Orleans States, Feb. 24.]

MR. J. D. Sadler, at present contracting freight agent in this city for the Texas and Pacific Company, has been appointed District Freight Agent for the same company, with headquarters at Atlanta, Ga.

Mr. Sadler's promotion will be welcomed by his numerous friends in the city, and by the railroad men of New Orleans the appointment is described as being an excellent one.

Mr. Sadler is a very capable official, and has always proved himself to be exceedingly courteous and obliging to the newspapermen who "do" local railroads for the city press.

The office of District Freight Agent at Atlanta for the T. and P. is in a measure a new one, as the same office was abolished a few years ago by the T. and P. However, the company has seen fit to re-establish the position and Mr. Sadler is fortunate enough to be made the first incumbent of it. The States wishes the new official every success in his new sphere of duty.

Two gold medals will be presented. Field day exercises same day.

THE announcement of Mr. John L. Chamberlain as a candidate for Police Judge appears to-day. Mr. Chamberlain is the present City Attorney, and has filled this position very acceptably and very faithfully for three or four years. His office has kept him in the Police Court much of his time, and given him a thorough acquaintance with the duties of the position of Police Judge. Mr. Chamberlain is well fitted in every way for the position he seeks, and with his many friends throughout the city will prove a strong candidate.

Hotels.

American hotels are so taken up with the desire to dazzle us that they sometimes make us uncomfortable. It is very fine and impressive to have one's card handled by two men and a big boy and then a little boy when calling upon friends at a great hotel, but it is fatiguing nevertheless to wait 30 minutes and then have the little boy come down and tell you they are not at home. Though most of us cannot abide some of the nuisances of the foreign system, such as being charged extra for soap and service, yet many traveling Americans, who are sufficiently unpatriotic, say that our big, glittering hotels are not quite up to the standard of the best ones on the other side in the small details of making one peacefully and restfully happy. The innkeeper's instinct for knowing exactly what is wanted without being told is more highly developed over there. They have been at it for so many generations.—Jesse Lynch Williams in Scribner's.

Triplets in China.

In the southern provinces of China there is a superstition that if triplets are born one of the three children will eventually become a noted rebel, writes Dr. Henry Liddell in Demorest's Magazine. In order to avoid that direst of Chinese curses, a bad son, a "wise man" is sent for in order to decide which of the three children is the destined black sheep. The three infants having been conveyed into a perfectly dark room, the "wise man" takes three pieces of twine, each of a different color, as white, red and black, and, entering the room, ties one of these pieces of string round a wrist of each baby. The one which, when brought out into the light, is found to have the red string on its wrist is drowned like a puppy.

Not Strictly Historical.

An artist was showing his neighbor, a nursery gardener, round his studio. "How do you like this picture of Adam and Eve in the garden of Eden?" "Very much, but"— "Well, what?" "You have placed in Eve's hand a variety of apple which has been produced only during the last 20 years."—London Tit-Bits.

The South African boer does just as little work as will keep himself and his family alive, and most of that he gets done by Kafir servants, who, in the more out of the way districts at any rate, are practically slaves.

to which the expectant mother is exposed as she presses to her heart her babe, and the dread with which she looks forward to the hour of approaching motherhood. By the use of

"Mother's Friend"

the body is made to yield pleasantly and without internal protest to the change it is undergoing. Headache and nausea are dispelled, the depressed and nervous feeling yields to one of pleasurable expectation. Danger to life of both mother and child is avoided, and she passes through the ordeal quickly and her recovery is rapid.

"I know one lady, the mother of three children, who suffered greatly in the birth of each, who obtained a bottle of 'Mother's Friend' of me before her fourth confinement, and was relieved quickly. All agree that their labor was shorter and less painful." JOHN G. FOLHIE, Macon, Ga.

St. Louis Failure.

ST. LOUIS, March 3.—The Schwartz Brothers' Commission company, with offices in the Merchants' Exchange building, has made an assignment to Attorney Joseph H. Zeumbalen. The firm estimate their assets at \$300,000. The assignment is directly attributed to the failure of the Mullanphy bank. Schwartz Brothers were one of the largest commission firms in the city, and had an extensive country clientele.

Will Rebuild at Once.

ELWOOD, Ind., March 3.—The American plate glass factory, which burned at Alexandria Monday, was insured in 22 companies, aggregating \$93,000. The debris is being cleared away, and it will be rebuilt at once, and will be ready for work again by June 1.

Dastardly Outrage.

WHEELING, March 3.—John Henderson, aged 45, and his son Percy, aged 13, died yesterday of burns received in a fire at Mrs. Mary Farrell's boarding-house. Oil had been poured at the foot of their bed by some unknown party. The Hendersons died after four hours of terrible suffering. James Brady, who saved the lives of many others in the house by giving the alarm, will likely recover, although severely burned.

Some of the bosses acceded to the demand, and the probabilities are that the new scale will be accepted by all.

GOMEZ INTERVIEWED.

He Does Not Ask Help but Wants Fairness From America.

NEW YORK, March 3.—The Sun's Havana correspondent sends the following statement given to him by General Maximo Gomez, at his Santa Clara camp, on Feb. 25:

"I suppose that the American public is well aware now of the fact that we want the absolute independence of the island from Spain.

"We do not seek to involve the United States in a war with Spain. We do not try in the least to compromise that country in our struggle, or to win our independence with any material help from Americans.

"No, we do not want American help and we did not count upon it when we revolted against the tyranny of the Spaniards, but we do not like to see the American nation siding with our enemies, the American warships haunting our expeditionary steamers, the American police arresting our friends abroad, and serving—oh, shame for the country of Washington!—as agents of the Spanish monarchy.

"We like fair neutrality. We like to struggle alone against Spain, not against Spain helped by the powerful resources at the command of a president of the United States.

"I know that the American nation does not approve such conduct and is in full sympathy with our cause. I thank the American people as I thank the American press, and I am hopeful that President McKinley will be more just than President Cleveland."

It is known that the government at Madrid has intimated that General Weyler might better send in his resignation in case no clear proofs of progress against the revolution shall have been given early in March.

At this moment Gomez controls the province of Santa Clara and fighting is general all over the island.

It is generally believed by Spaniards that as soon as a good opportunity offers Weyler will be recalled.

Whatever Spain may do the end is near. Spain can not afford a year more of war, which becomes a certainty with the approach of the rainy season. Insurrection and immorality prevail in her army, and her money is exhausted, while the patriots are as strong and as enthusiastic as ever.

Weyler's son, Don Fernando, has arrived here. It is said in the palace that he has arranged all his father's baggage for departure from the island.

Another Expedition OK.

NEW YORK, March 3.—A large schooner loaded several hundred cases of arms and ammunition and sailed for Cuba from Barnegate yesterday morning, having successfully eluded the federal authorities. Major Castroverdi is believed to be in command.

WHERE MONEY IS PLENTY.

Miners Are Making From \$10 to \$500 a Day in Alaska.

INDIANAPOLIS, March 3.—A letter about gold mines and good times in one part of the territory of the United States has just been received by H. W. Ogborn of this city from Oscar Gard, deputy collector of the port of Mary's island, Alaska. Gard formerly lived in Ohio, and then at Richmond, Ind., and he went to the northwestern states, and finally to Alaska.

"There is a terrible rush to the Yukon river pacer mines from the states," he writes. "There are four large steamers running up here from Tacoma and they are loaded down with miners bound for the mines. It is something remarkable what hardships and exposure men will go through for gold. They have to walk and pack their provisions 900 miles over the mountains to the Yukon, yet there are hundreds of men doing it."

"They make all the way from \$10 up to \$500 per day, washing on the bars of the creeks and river. This may seem like a fairy tale, but nevertheless, it is true. I know a Mr. Miller who washed out in two seasons \$53,000 in gold dust in 140 days of actual work, but, of course, this is an exception. Most of them get from \$3,000 to \$5,000, and, of course, some don't get anything."

"This is a very mild winter along the coast, 16 degrees above zero the coldest day so far at Mary's island. This is caused by the Japanese current. Times are good in this country, but at the rate people are coming in, I am afraid it will be overdone."

WHERE IT IS NOT SO PUBLIC.

The Murderers of Pearl Bryan to Be Taken to Another Jail.

CINCINNATI, March 3.—Judge Helm of Newport has ordered the removal of Scott Jackson and Alonzo Walling, the murderers of Pearl Bryan, from the Covington jail to the Campbell county jail at the county seat, Alexandria.

Alexandria is a village in the geographical center of the county, 13 miles from Newport, and about five miles from the nearest railway station. The jail is an extremely primitive affair, which would not resist an attack five minutes, but the authorities are satisfied that no violence is to be expected in the cases of Jackson and Walling.

Jackson and Walling might escape from the Alexandria jail with small effort were they left to themselves, but as two guards of the deathwatch will have the prisoners constantly under their eyes the Alexandria jail is undoubtedly safe.

The prisoners do not relish a removal for they have had good times in the Covington jail, but the mandates of the court must be obeyed, and they will probably be taken there today.

BERLIN, March 3.—A petition for the retention here of Mr. Edwin F. Uhl, the United States ambassador to Germany, signed by a number of prominent Americans in this city, has been cabled to President-elect McKinley.

Will Sleep at Windsor Castle.

LONDON, March 3.—United States Ambassador Mr. Thomas F. Bayard and Mrs. Bayard will bid farewell to the queen on Thursday, when they will dine and sleep at Windsor Castle.
